

A survivor to advocate story

Wounded to Wow!

Debbie Jenae is on a mission to change the dialog around child abuse prevention and recovery. In an uplifting presentation, she shares her journey from painfully shy victim to child advocate, motivational speaker, and award-winning author. Her story is heart-breaking. Her insights are profound. Her perspective is positive and surprising.

Debbie's perspective is influenced by:

- Seven years as a court appointed child advocate
- Personal experience, study, and training in trauma and healing
- A passion to understand human behavior. Studies include mind-body-energy medicine, animal symbology, women's ancient history and influence, and handwriting analysis (she is master certified) - because these and more were an integral part of her healing.
